## NATURE PROGRAMS

## Celebrate 40 years of Wilderness!

**In 1964**, the Wilderness Act secured "for the American people of present and future generations the benefits of an enduring resource of Wilderness."

President Reagan signed the California Wilderness Act 20 years later, bestowing the additional protection of Wilderness on much of these parks.

What is "Wilderness" with a capital "W"? It is a place where nature prevails. It is the opportunity to find quiet, solitude, challenge, inspiration, and an untamed community of life. It is an outdoor laboratory where we can study our natural heritage in a relatively unchanged state. It is part of our American heritage, a history

that we can explore in books, films, or first-hand. And it is a legal designation on certain special lands designed to preserve all of these benefits.

Wilderness is our shared inheritance – it belongs to us all! So learn about it. Experience it. Enjoy and support it.
